

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## P R E F A C E .

---

THE interest shown in the recently published Records of the Regiment, together with the fact that this year the Regiment celebrates the Two-Hundredth Anniversary of its embodiment in 1689 by William III, has induced me, as a small memento of the Bi-Centenary of the Corps, to submit the following pages, which I feel sure will form an interesting addition to the Work. After a considerable amount of labour and research this Roll has been compiled; inaccuracies doubtless there are, but these I hope are not unnecessarily numerous. In this volume, I have endeavoured to record the services of the Officers of the Regiment; in the names of whom will be found those of the leading families of the County.

An interesting feature of the Work is the Alphabetical List of Officers, where not only their Services are recorded, but in many instances the places and dates of their birth and death, are given, besides other information of interest.

In Appendix E will be found a Table showing the Property Qualification required from Officers before being commissioned or promoted, the fact of this Qualification being required, doubtless

accounts for so few of the Junior Officers receiving promotion, while so many were appointed Captains and Field Officers who had no previous service. It is curious to note that out of the sixteen Officers who have commanded the Regiment, or Battalions of the Regiment, nine have been appointed to the command direct, one joined as Lieut.-Colonel, one as Major, three as Captains, while only two joined as Subalterns, viz: Colonel Plumbe-Tempest and the present writer.

The earliest Officers of the Regiment whom I have been able to trace, are Colonel ffarington and his son Captain William ffarington, who held commissions in the time of Charles the First, ancestors of Miss ffarington of Worden (to whom I am indebted for the above information), and who is the present representative of that old and distinguished family, members of which have held commissions in the Old County Regiment for the past Two-Hundred and Fifty years.

From the year 1642 to 1689 a blank occurs which I have in vain attempted to fill; from the latter period, however, the Roll is carried on until the present time, and contains the names of about Five-Hundred and Fifty Officers.

In the preparation of this Succession Roll, as in the original compilation of the recently published Historical Account of the Regiment, many difficulties have arisen from the loss and destruction of Regimental Records on successive periods of disembodiment. These difficulties are especially numerous in the earlier periods.

For the years antecedent to the embodiment of 1793, the only

procurable sources of information, besides the Rolls collected from County and Family MSS. and inserted in the Regimental History, have been the Lists of Officers of embodied Militia Regiments given in the Annual Army Lists for 1762, 1779, 1780, 1781 and 1782; the Militia Letter Books in the Public Record Office, in which are evidently many omissions and no sort of Index, and a few Duplicate Muster Rolls also in the Record Office, beginning with 1780. The notification of Militia appointments in the *London Gazette* was not customary until nearly ten years afterwards.

From 1793 to 1825, in addition to the *London Gazettes* (indexed) we have the Annual Militia Lists, "by authority," in which the names of Militia Officers were recorded instead of in the Annual Army List, but which, like all such publications, do not give the names of Officers joining and leaving again within any one year.

To these must be added the Lists of Officers of embodied Regiments inserted in the Monthly Army List, from the first publication "by authority" in February, 1814 to the disembodiment of 1816: also the Duplicate Pay Lists (embracing periods of embodiment only), which replaced the Old Duplicate Muster Rolls during the concluding years of the last century, and are now to be found (for all subsequent periods of embodiment) among the War Office Papers in the Public Record Office.

Since June, 1853, Lists of Officers of all existing Militia Corps have been inserted in the Monthly Army Lists, without reference to embodiment.

Every effort has been made to render the present Roll as complete as possible, but the discrepancies between the dates given by the different Official Lists, and the errors in the names, particularly in the earlier years, are so frequent that accuracy attained must be regarded as approximate only.

When no good reason has appeared to the contrary, the Army and Militia List dates have been preferred to others, as being those recognised in the Service at the time.

In conclusion, I wish to draw attention to the List of Places mentioned in Appendix G, in which the Regiment has been, from time to time quartered, from which will be seen the frequent change of Quarters, and the long and tedious marches accomplished by the Regiment.

I have, again, to thank my friend H. Manners Chichester, Esq., of Charlton, for the able assistance given me in researches at the Record Office, &c. I have also derived much help in compiling the several Tables forming the Appendices of this Work from the "Records of the 3rd West York Militia," by Major Raikes; also from "The Roll of Officers of the York and Lancaster Regiment" by the same Author, to whom I express my thanks.

Lancaster,

J. LAWSON WHALLEY.

" Nov. 10	Thomas John Marker ...	" 2nd Battn. Royal Lancaster Regt.	Now serving.
" Dec. 28	George Sidney Sheppard ...	" 4th Dragoon Guards ...	Now serving.

The column of Remarks in all these Tables show the highest rank attained by each Officer. Militia Officers previous to the year 1815, were accepted to serve during the War only, after which they became entitled to Half-Pay. This accounts for so few having obtained high rank, as they were placed in most instances on compulsory Half-Pay on the reduction of their Regiments after the Peninsula War, the 2nd Battalions of many Regiments being then disbanded.
